

7MB VET BOLUS™

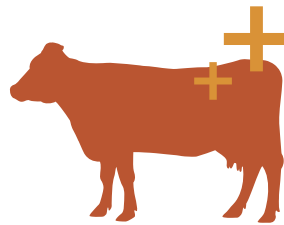

Modern animal production needs a modern approach to mineral supplementation. The mineral management focuses on organic trace minerals that are better absorbed, stored and utilised by the animal. Alltech has proven that modern management of mineral nutrition can be carried out by inclusion at significantly lower levels while also improving performance.

WHAT IS 7MB VET BOLUS™?

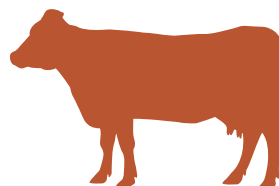

7MB VET BOLUS™ is a specific formulation of seven highly bioavailable organic trace minerals designed to address major reproductive challenges of cattle and buffaloes in South Asia. Building up and maintaining the micronutrient profile of the animal is critically essential to support normal reproductive process such as follicular development, ovulation, expression of heat, conception and embryo implantation.

When should 7MB VET BOLUS™ be given?

Cycling Cows: Immediately after observing first post-partum oestrus, administer one bolus daily until occurrence of second heat (usually 21 days later). After insemination during this cycle, continue to administer one bolus daily for seven days.

Non-cycling cows: Administer one 7MB Vet Bolus™ daily for seven consecutive days or until strong oestrus activity is observed. Continue treatment daily until second oestrus. Once mated, administration should be continued for a further seven days.

General Health: Administer one 7MB Vet Bolus™ daily for seven days as a nutritional support for

Wound Healing

Recovery from mastitis

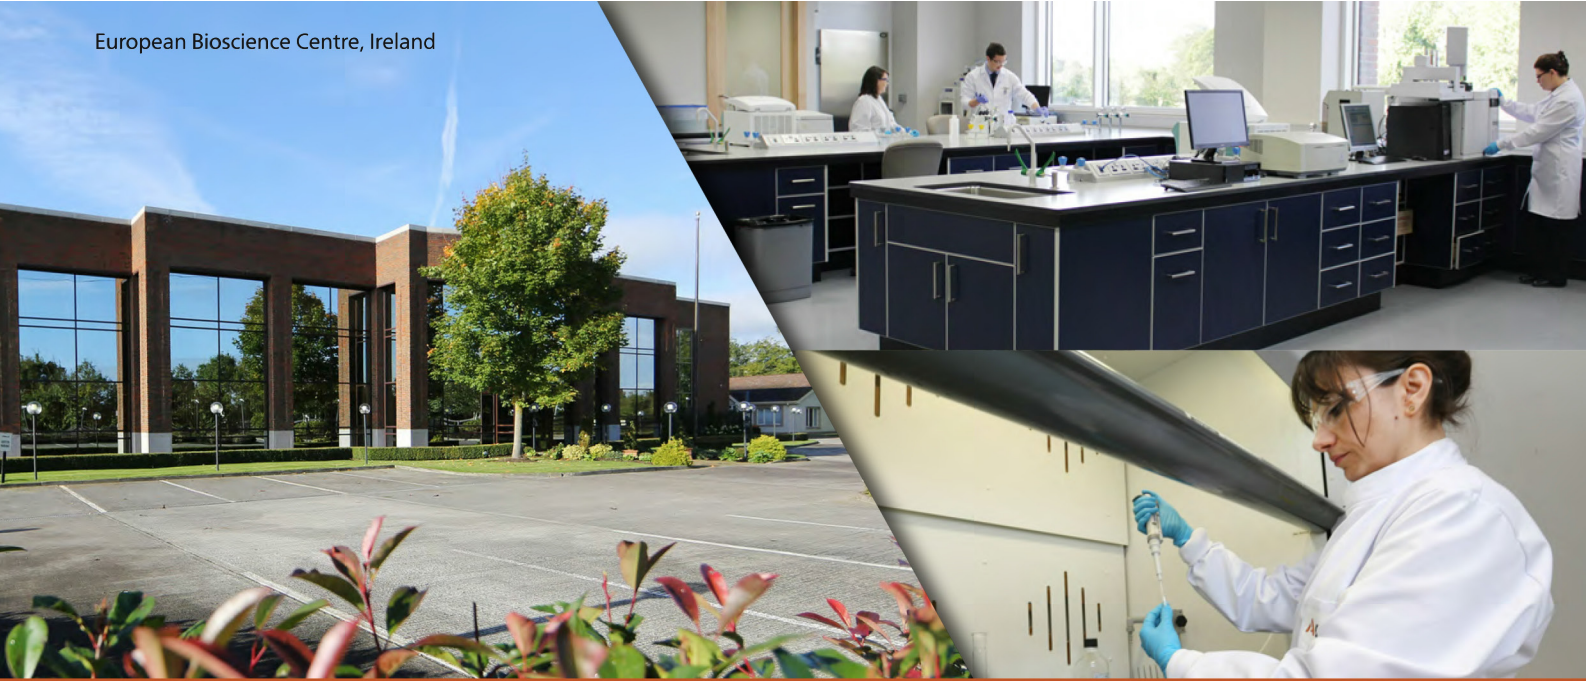

Skin disorders

Hoof health and strength

An infographic on a light beige background. At the top is a globe with a white location pin in the center containing the number '1'. Below the globe is the text 'Alltech is the world's largest producer of trace minerals'. At the bottom is the text '34 YEARS' next to a microscope icon, with '28 years of research in organic trace minerals' and '(In 1990, Bioplex trace minerals were launched in international markets)' below it.

“ **ALLTECH MIMICS THE PLANT.**

We are providing essential minerals in the way
that nature provides them...

IN BIOPLEX FORM ”

7MB VET 5gm bolus contains the **SEVEN** essential organic trace minerals

- 450 mg Bioplex Zinc
- 125 mg Bioplex Copper
- 128 mg Bioplex Manganese
- 5.5 mg Bioplex cobalt
- 1.5 mg Sel-Plex organic selenium
- 1.5 mg Bio-Chrome organic chromium
- 13.95 mg EDD Iodine

Dosage: Cows/Bufaloes: 1 Boli/day Or as directed by the Veterinarian

Packing: Paper box containing 6 strips of 7 bolus each

Storage : Store in a cool, dry place. Best Before 36 months from date of manufacture

Country of Origin : India

Alltech® Q+™ (Quality Plus) program is a key element of the Alltech Quality System. All incoming raw materials are tested for PCBs, dioxins and other contaminants and then tested again before delivery. Alltech is the only company to offer a positive release program for organic trace minerals.
